NEW LAWS.

AN ACT for the Benefit of Securities and Endorsers.

Section 1. *The General Assembly of North Carolina do enact*, That in all cases where any security or endorser on any note, bill, bond, or other written obligation, shall consider himself in danger of loss in consequence of his contingent liability, either from the insolvency or misconduct of the principal in said note, bill, bond, or other written obligation; or from the negligence of the payee or holder of any such instrument, it shall be lawful for such security or endorser at any time after such note, bill, bond, or other written obligation shall have become due and payable, to cause written notice to be given to the payee or holder of any such paper or obligation, requiring him to bring suit on said obligation, and to use all reasonable diligence to save harmless such security or endorser; *Provided*, Nothing herein contained shall apply to official bonds, or bonds given by any person acting in a fiduciary capacity.

Sec. 2. Should the payee or holder of any such note, bond, bill, or other written obligation, refuse or fail, within thirty days from the service of said notice, to bring suit in the appopriate Court in an effort to save harmless such security or endorser, such failure to sue or negligence shall operate as a discharge from all liability whatever on any such note, bond, bill, or other written obligation; *Provided*, That this notice shall not have the effect to discharge from liability any co security who does not join in such notice, or who has not given a separate notice as required by this act; *Provided further*, That this act shall not apply to holders of such note, bill, bond, or obligation, who hold the same as collateral security or in trust.

Sec. 3. And such notice shall be in writing and served by the Sheriff or his Deputy, who shall return it to the party for whose benefit the notice was issued, which shall be evidence of the fact in all the Courts of this State; *Provided*, That the provisions of this act shall not apply to any notes, bills, bonds, or other obligations affected by the present stay law of the State.

Sec. 4. That this act shall take effect from and after its ratification.

Ratified the 12th day of April, A. D., 1869.

"The country has been stirred of late to its depths by Mr. Wells' official statistics, showing that the 'Rich are getting richer, and the poor poorer;" by the speeches of Senator Sprague, showing how the inordinate love of money and power threatens to disorganize our whole society; by the declarations of Senators Fessenden and Trumbull, that American statesmen have degenerated into mere place-seekers and corruptionists; by the appointment of worthless men to responsible trusts; by the disregard of fitness or qualification evinced by the appointing powers; by the exposure but not the punishment of wide-spread frauds and mammoth monopolies in public and private life; by the increase of murder and robberies; by the daily augmenting list of suicides not only of adults, but even of children; by the discovery in Boston of *twenty thousand women who are exposed to starvation*, while the supercilious lords and ladies of Beacon street and Nabant revel in wealth, luxury and exclusiveness; by the publication of the income tax lists, showing that in nearly every city, town, village, and hamlet of the United States the bulk of assessable property is held by a handful of persons, while the masses of the population earn, in the aggregate, much less than $1,000 *per capita;* and last, but not least, by the daily increasing lust for more territory, threatening on the one hand to fasten an additional number of heterogeneous populations upon the already sufficiently complicated tangle of American races and nationalities, and on the other to combine England, France, and Spain against our aggressive policy, and to bring upon the country, in the event of foreign war, the ruin and disgrace of repudiation. * * *

"It was not thus in the early days. Our nation was founded by 'gentlemen and gentlewomen,' who displayed the highest moral and social culture; and the glory achieved by the Republic in the first stage of its existence was due to them, and them alone. The period of Washington, Hamilton, and Franklin was the golden age of America, and, in the degree that we strayed from the ideal set by these great and good men, and that baser elements began to preponderate among the people, and consequently in the councils of the nation, we lowered our destinies and entered upon our decay. It is necessary to keep in view this transition from the gentry to the rowdy period in order to understand now even an admirable system of common school education, and unprecedented elbowroom for the laboring man, have failed to produce anything like a fair harmony, between our material and moral progress. Despite these advantages, we engaged in a bloody civil war, professedly waged, indeed, upon the strength of 'moral ideas,' and redeemed from its many far-reaching and not yet quite fathomable disasters by the abolition of negro slavery. But the historian will nevertheless shudder at the *absence of intellectual and statesmanlike power which permitted Americans* to cut each other's throats during four long years for the settlement of the slavery or any other question, and will point to the fact as evidence of the lack of civilizing influence in our institutions. Yet, granting, for argument's sake, all the glory which the champions of the war associate with its achievements and results, this much is certain, that the *spirit which prompted it was not exclusively pure and disinterested.* If it had been, it would ere this have asserted its beneficent logic as forcibly in those other spheres of iniquity and oppression which, though less palpable than negro slavery, are only the more dangerous to the commonwealth, because they are more insidious. Indeed, the Southerners, while they *sinned egregiously against the negro, never ceased to charge the Northerners with sinning as heavily against the poor whites*, and, though the former were unjustly held in bondage, while the latter enjoyed all the prerogatives of the richest citizen, the present condition of our non-proprietary classes warrants the conclusion that what was intended by the Southerners as a taunt was not altogether devoid of truth."—*Round Table, (Radical.)*

Prince Napoleon's Pompeiian villa in the Champs Elysees, built at a cost of 4,000,000f, is to be torn down.

THE RIGHT OF SELF-GOVERNMENT.

Recent developments make it absolutely needful and imperative that the fundamental principle of our truly wonderful Federal Constitution should be vindicated.—This may appear to some a mere work of supererogation, but not so to him who calmly surveys the field and reads with care the astounding signs of the times. We have, on several occasions, referred to this matter, and we would, especially, direct the readers attention to the earnest and cogent article published a few days since upon "Imperialism—Radicalism," from that staunch and able old paper, the *National Intelligencer*. But not only from such a faithful watchman as this paper is does the alarm signal come, but from *every* quarter, the cry rings out upon the startled air, "To your tents, O Americans!" There *is* danger—danger to our dearest, most highly cherished rights, and the danger is increased a hundred fold, because our people are asleep; asleep, when the car of government is rushing down a stupendous inclined plane, the breaks up, the valves open, and no engineer aboard who is equal in skill, nerve and devotion to the tremendous occasion. If something is not done; if some strong hand is not laid upon the engine that threatens with destruction humanity's dearest hopes, then there is a crash, a fearful, terrible crash.

We say then it is high time that our best men and ablest writers were busy in vindicating the great idea of our National Constitution—the right of man to self-government. In our own hitherto well-favored land, (if we pass by the last eight years,) it has become necessary to vindicate this great, fundamental principle. The tendency to abuse and wrong is so great; the leaning to ideas that are not of us, and have no place in the heart of a true patriot, is so manifest; there has been both in Europe and in our country so prevalent a disposition to blend the right of self-government with the most Godless theories and the vilest passions and the most dangerous and disorganizing measures, that the states man could do no greater service than to separate them and place the grand principle of our government in clear light again and before all men, that it may be rescued from the gross misuse and culpable misunderstanding to which it has been subjected. Here then is fit theme for our most skilful pen or best thinker. In the meantime we will detain the reader with a paragraph or two.

What is the misapplied idea, and what is the true idea of self-government?

There are men now who hold that *self*-government means that man owes obedience to *himself*—that *self* "is the ultimate ground and reason, and law of his responsibility." It does not take a philosopher or a logician to perceive at once that here is palpable misrepresentation of the whole—a signal perversion of the principle that was adopted by our forefathers, and incorporated into their immortal instrument. The idea was not that self-government was to make reason and will and conscience the guide and ground of all authority. The claim contended for by the astutest and most powerful intellects who were engaged so long and anxiously in framing the Constitution, was, that there was to be no opposition to the just authority of God, but only opposition to the groundless, usurped and tyrannical authority of man. Now, there is a distinction here, potential and positive. Any one with ordinary understanding may readily comprehend it.

It has been suggested, and wisely, as we think, that the principle, as understood by our fathers before us, would be better expressed by "the *duty* rather than the *right* of self-government." There would be less ground for cavil and for abuse of the principle. The men who first fully perceived and gave expression to this great underlying principle gave full allegiance also to the great recognized duty of absolute, unqualified obedience to the laws of Almighty God. With them His commandments were supreme. To Him they owed the highest obedience. Then it must follow, that "their right, aye, and their duty" demanded imperatively that they must "disown allegiance to any government and law which prohibits them from doing their duty to God; it must be their right and their duty to govern themselves in such a way as that they may be obedient to the government of God."

Animated by such a just and noble conception of duty and principle, Washington and Hamilton, Jay and Madison, and their illustrious associates, united their wisdom in forming that noble instrument that has brought us safety and happiness whenever we have obeyed its teachings. As has been finely said by an American divine when speaking of the spirit in which the great principle of self-government originated: "It was not in a spirit of lawlessness and wilfulness, and of reference to *self* as the ultimate ground of all rights and duties; but it was in a spirit of devoted loyalty to law—the highest law which can govern a moral and responsible creature—that the principle of self-government was born."

But our article is sufficiently long already without extending it. We propose to return to the subject and to show how this idea is in accordance with the highest reverence for law, and perfectly compatible with the highest Christian duties.

JOHN RANDOLPH AND GOVERNOR HOLDEN.

We shall take occasion, at some future day, to copy from the *Standard* what Governor Holden once thought and said about foreigners, as he called them, holding office in North Carolina. A foreigner he defined to be any man not born in the State. Those, of course, include such as Littlefield, Abbott, French, Heaton, Dewesse, Tourgee, Laflin, French and Brewer.

On this subject John Randolph speaks with more dignity and less vim than Holden. The former said "I know of no foreigner who has been, or is now, in any respectable office in the gift of the people of Virginia. No member of either house of Congress, no member of our Assembly, no member of our Supreme Court. Of the newspapers printed in our State, as far as my knowledge extends, without discrimination of party, they are conducted by native Virginians. Like yourselves, we are a united people. Jacobinism is of no country, it is a sect found in all. Your jacobins in Virginia would be very glad to hear of the bombardment of Boston. So I very much fear your jacobins would not be very sorry to hear of a servile insurrection in Virginia."

Such was the sentiment of John Randolph, fifty-five years ago, upon party and sectional spirit, as exhibited in New England and Virginia. Abbott can now say of New England, as Randolph then said of Virginia:—no foreigner from any other State represents Massachusetts. Yet Virginia is represented by foreigners in every branch of her government.

North Carolina can boast of four foreigners in Congress, viz: Abbott, French, Heaton and Dowcese. She has twenty foreigners who are members of the Legislature; one Judge a foreigner, Tourgee; two Professors of the University are foreigners.

Could our people hold office in New England? Will the time ever come when they can? When we have plundered and burned New England as she has done us, we can represent her, and not until then.

COUNTING WITHOUT THE HOST.

"And if the worst comes to the worst, no force will be more potent than that represented by the men who fought in the Confederate army, and who wished success to the Confederate cause."—*Washington Chronicle.*

If there is one editor in the land who is more contemptible than any other, it is the fellow Forney who runs two papers. We recently copied certain paragraphs to show how virulent and vindictive he has been towards the people of the South. But lo! the change. He snuffs a battle afar off. Our Government, for ought Forney knows, may be soon involved in a war with some foreign power or powers, and this good hater of the South is looking around to see what are the resources of the country in such an emergency. Hear him: "If the worst comes to the worst no force will be *more potent* than that represented by the men who fought in the Confederate army." Verily! wonders will never cease. Forney praising the courage and power of Confederates! The boys in gray despise such praise. They need no such palaver. *If* the Confederate soldiers were to enlist for a fight against any European power, there is not the slightest doubt that incomparably the "most potent" soldiery would be these very Confederates. But *will* they fight? Who will answer? One thing is quite certain. Forney cannot answer for them.

THE INDIANA LEGISLATURE.

It was agreed to by Republicans and Democrats in the Indiana Legislature that the XVth. Amendment would not be pressed to a vote during the present session. The other day forty-two Democrats resigned, whereupon it was moved to adopt the Amendment. This was carried, and the joint resolution ratifying the XVth. Amendment passed by 81 Ayes, Nays, none. It was understood by the Radicals that if the people were appealed to the Amendment would be lost. Hence this strange and iniquitous action. The Governor decided that a resignation did not take effect until he had accepted it, and, therefore, the Democrats were members in spite of their resignation. This is the Radical way of changing the Constitution. By fair means or by foul means the much desired Amendment must be ratified. This is necessary to Radical success. So we go. The grade descends fearfully and the engine has on a full head of steam, and there is no capable engineer aboard.

A telegram from Washington says that, "It is stated that the President will appoint a number of colored persons to responsible offices and official positions in all the Northern and Western cities, in order to offset the appointment of so many of that race in the South."

If the President will do what is herein stated, he will be certainly treating his friends in a proper way. The colored people by their almost unanimous votes, placed Grant in the Presidential office and gratitude for favors rendered by them, should prompt him to appoint negroes in the South. Let the President feed all sections out of the same spoon. The dose suggested in the telegram will doubtless be very offensive to Northern Rads, but it is to be hoped, that in spite of their wry faces Gen. Grant will commend to their lips the very same ingredients he has forced Southern whites to swallow. "Most certainly what is sauce for the Southern goose is sauce for the Northern Radical gander."

THE N. C. MEDICAL CONVENTION.—We learn from a delegate to this body, that owing to the misapprehension on the part of many physicians as to the time of the annual meeting, the attendance at Salisbury last week was not so large as it would have been. There were some sixty members present, and the proceedings were of a highly interesting character. Our eminent townsman, Dr. E. Burke Haywood, delivered a most admirable address. Our intelligent informant says it was the best he has yet heard upon any similar occasion.

PEN AND INK SKETCHES OF THE UNIVERSITY OF NORTH CAROLINA, AS IT HAS BEEN.

DEDICATED TO THE PEOPLE OF THE STATE, AND TO THE ALUMNI OF THE UNIVERSITY.

No. 8.

QUERE AS TO NUMBERS.

The number of students, under Dr. Caldwell, never exceeded 165. At the time of his death, in 1835, it was not much over 100.

I do not know that *numbers* should always be taken as an evidence of what a college is doing, or *be considered* as the best index of its usefulness. There is some vulgarity in the idea. Is not the water of the secluded mountain spring, gushing from under the rock far up its sides, over hung with laurel and pine, small though it be, is it not purer, clearer, sweeter than that of the great well walled in, and trampled and muddied by a variety of cattle?—I commend this thought to those who contend for wider doors and thronging crowds in our literary Institutions.

Let a College be so amply endowed that the salaries of its officers shall be not only entirely independent of the tuition fees, but shall be so liberal as to command the highest class of teachers, and let the facilities and apparatus of instruction in all departments be absolutely unrivalled. Let the teaching of 125 young men be of the best grade, the temptations to vice and folly few and far between, and let the personal influence of the Faculty be exerted so as to touch every individual student.—Then will not these 125 be better trained, better educated, better fitted for their work in life every way, than the 400, 500, 600 of the great Universities who point to their annual catalogues as proof of their superiority to the "one horse" Colleges? Who would not rather have a son educated at Rugby than at Eton? I believe that the University at Chapel Hill did more towards the fostering of literary taste and the love of letters and in the diffusion of elevated aims and liberal ideas in the first thirty years of its life when it counted its alumni by tens, than in the last thirty years when it counted them by hundreds.

These, I know, are not popular ideas,—nor are they, indeed, at present, practicable, and I hope that no advocate of the opposite side will represent me as holding that *two students from abroad and six little village boys besides*, are University enough. If the University of North Carolina were properly and ably officered now, and it rested with me, I would pour in 500 young men to those empty echoing corridors and halls. Practice and theory cannot always coincide. Poor as we are, and with such slender college endowments, we cannot afford the better way. We must have crowds in order to have money.

THE SECOND PRESIDENT.

The choice of a successor to Dr. Caldwell was a matter of deepest importance, and a question that was discussed with no little anxiety and apprehension. The President of a University is like the Captain of a ship. All depends on him. The Trustees of thirty years ago were fully aware of this fact, and they deliberated like men who felt their responsibility. Many candidates were proposed. There were one or two among the Professors whose claims to succeed Dr. Caldwell seemed superior to any others that could be urged. It was probably because they could not decide among conflicting claims and urgent friends so near at home, that the Trustees turned in an entirely different direction. Their choice fell, singularly as it seemed to those who looked on, fortunately as it proved in the issue, upon a man who was not regularly collegebred, nor had ever made any pretensions to the character of a scholar, a self-made man who had passed his life so far, among men of the world, who had won his own way from the backwoods of Buncombe, through the various degrees of a lawyer's career, to the Governor's Chair to Raleigh, and who had perhaps never once turned his ambitious eye upon any office in the University as likely to be within his reach, or even desirable.

GOV. SWAIN.

When Gov. Swain came to Chapel Hill to take his seat as head of the University, there was no little curiosity felt to see him, and some disappointment when he arrived. In appearance he was the very reverse of Dr. Caldwell. Though pleasant and accessible, there was wanting the old school touch of quiet and dignified courtesy and grace,—the old *prestige* of scholarly association and name which people had so long revered and deferred to. There were not wanting those who said Gov. Swain was a mere politician and one sarcasm especially was levelled at him to the effect that North Carolina had always done a great deal for David L. Swain and now she had sent him to the University to get an education.

Gov. Swain however was one to hold his own wherever he went. He soon made himself felt as a remarkable man, second to none in sagacity, prudence and administrative ability. As to his scholarship, those who doubted it were soon silenced, and obliged to confess that at any rate he knew how to use what he had. I have heard Dr. Phillips tell with great *gusto* the effect produced when on one occasion there being a considerable company assembled at Dr. Mitchells, in the course of the conversation, Gov. Swain picked up a small edition of the Illiad lying near, and turning to a certain page, translated fluently and elegantly a dozen or two lines having a very happy application to the matter under discussion. No man knew better than Gov. Swain the effect such an incident would be likely to produce.

He told me once that on his first coming to Chapel Hill he received many a hit from the college boys, many a fling from the walls of his recitation room or Person Hall. That he made it a rule never to notice these things, any further than to take any hint they might afford him. That he always revised himself and reformed, if needful, in whatever direction the jibe or the caricature pointed. *Fas est ab hoste doceri*, he added with a merry twinkle of the eye. To this wise and masterly forbearance Gov. Swain owed much of his success in life. He who can control himself may be trusted to control others.

HIS POLICY.

That Governor Swain did not believe in the above theory, concerning small and select colleges, may be inferred at once from the enlargement that in a few years took place in every department at the University under his control. His first step was to put himself *en rapport* with the Board of Trustees so as to feel quite sure of their support in all cases. He next secured the entire control for himself and his colleagues of the domestic management and discipline of the Institution. Such was the confidence felt in him, in his purity of intention, his integrity, his ability and his profound good sense, that the Board of Trustees, by degrees, committed everything to his administration. He demanded, among other things, that no man should be appointed to any chair in the Faculty except with his full concurrence, (and that of his colleagues.) The venerable Duncan Cameron rose and seconded him, saying that the Captain of a vessel ought to be allowed to pick his own crew.

In 1836 the Faculty numbered nine. The students were 164. Below this they never fell again, but advanced steadily till the Faculty numbered sixteen, and the students were 450.

STATE NEWS.

Last night a meeting of parties interested in the inspection business at this port was held at the City Hall. Its ostensible object was to condemn Pennypacker, who, it seems has departed from a written agreement made as a condition of their appointment, to work with the other Inspectors and divide the profits. Much feeling was manifested. Resolutions were introduced impeaching Pennypacker for this departure from what was characterized as a political and personal obligation, and asking the Governor to revoke his appointment. The resolutions also condemned the course of Geo. Z. French in the General Assembly, and applauding that pursued by Geo. W. Price, the colored representative in the same body. The meeting was one indicative, on the part of those calling it, of great opposition to carpet-baggers. A. H. Galloway, colored Senator from this county, undertook the defense of these gentry.—Many personal insinuations and denunciations were indulged in, and at one time a row seemed impending. The scene was rich, and one humorous beyond description.—*Wil. Journal.*

A shrewd swindler has recently been imposing, with some success upon the railway officials in this section. Last week he passed over the Manchester Railroad from some point South, representing himself as a son of Mr. Ravenell, President of the North Eastern Railroad. On the Wilmington and Weldon Railroad he was first seen at the four mile post. He appeared at the Section Master's house, and there represented himself as a son of the late Gen. Alex. MacRae, formerly President of the Railroad, and stated that he was on an inspecting tour. He imposed upon the Section Master's wife and took a meal at her house. He next turned up at Rocky Point and represented himself as being on some mission connected with the poor. At Duplin Roads he was next seen, and finally at Magnolia. There he stopped with the Section Master, Mr. Horne, and displayed singular knowledge of the affairs of the Company. Before leaving he bought a ticket to Goldsboro' of the agent, and he made him give a receipt, saying that, as he was connected with the road, he intended to have the money refunded when he returned to Wilmington. During the night he robbed the Section Master of what little money he then had in his possession.

This impostor is a small man, quick spoken and of pleasing address. He seems a person of considerable intelligence and much general information. We caution the public against him. He will soon, no doubt, be representing himself as a son of Colonel Fremont, and he may impose upon others. This notice should be passed around.—*Ib.*

POSITIVELY INJURED.—There is but little doubt that the Cotton prospects through this section have been seriously injured by the late cold snap. The cotton planted three weeks since has not yet come up, and positive fears entertained of anything like a stand of cotton being had, many of the farmers being engaged in plowing up their fields and replanting. A great scarcity of seed now prevails, and if it be true that the seed in the ground fails to come up, the loss will be very heavy and general. We met an experienced farmer yesterday, however, who asserts the belief that the damage to the seed now planted will be nothing like as great as it is estimated, and we sincerely hope he may be right in his views. For upon the cotton crop of the present year through this section, as well as elsewhere in the South, depends the prosperity of our people for the next couple of years.—*Wil. News.*

IMPORTANT DECISION BY JUDGE WATTS.—During the sitting of the late Superior Court for this county, Judge Watts made certain decisions which are of importance to a large number of our people. Questions involving the Constitutionality of the Acts of the Legislature in reference to what is commonly called the Magistrate's Stay Law was raised and decided to be unconstitution, the court holding that there should be no distinction between old and new contracts. The Act referred to made certain writs returnable in ninety days, and certain other writs returnable at the discretion of the Justice, the first part being declared unconstitutional, making all writs thus returnable as per Code of Civil Procedure.—This question came up from the decision lately rendered at Scotland Neck by Justice Fenner, of which we gave an account at the time.

The Court also held that the act requiring a mortgage to reduce his debt to a judgment before foreclosure is in violation of the contract, impairing the contract, and therefore void, the same decision holds good in deeds of trust.

In both cases Mr. Edward Conigland appealed for, and Col. Walter Clark sustained, the constitutionality of the laws.—*Roanoke News*

THE RAILROAD MEETING.—We are much pleased to learn that great harmony prevailed at the meeting of the Eastern and Western Divisions of our Railroad at Morganton, on the 4th inst. The Legislature having repealed the objectionable clause in the amendment, there could be no good reason for its rejection, therefore it was accepted by an almost unanimous vote. We are informed that it has been determined to put one hundred miles—60 on the main trunk and 40 on the French Broad Branch—of the Western Division under contract at once. The President of the Eastern Division has sent word to the contractors on the Divisions west of the Swannanoa mountain, that on or about the first of next month he will be prepared to put them to work.—*Asheville News.*

GOLDSBORO FEMALE COLLEGE.—The Annual commencement of this institution of learning will take place on the 25th and 29th of the present month. The exercises will close on the evening of the 26th with a musical soiree, commencing at half past eight o'clock.—*Newbern Journal of Commerce.*

The New York *Express* says: "The anti-Sprague party won in Providence, R. I., yesterday; but it cost them $30,000 paid, and $50,000 more pledged, according to the Providence *Post* (Radical). The most radical and least honest party appear to have won by money, and henceforth a Providence election is as rotten as an election elsewhere where votes are openly bought and sold.

ENGLAND.—Bismarck, in his epigrammatic way, uttered no more than a common opinion when, in reply to some English criticism on his policy, he said. "If I were an Abyssinian, or a Hindoo, or even an American, I might, perhaps, care what England thinks; but being a European, I do not."—*London letter—New York Tribune.*

NEW ADVERTISEMENTS.—State Agent wanted for an Insurance Company.

TAX Notice by T. F. Lee, Sheriff.

Corn, Meal, Flour, Whiskey, Ale Porter, &c., by Douglas Bell.

Butter, Corn, Flour, Bacon, Cotton Yarn, by W. H. Jones & Co.

A great improvement in Spectacles—call at J. C. Palmer's.

THE Protestant Episcopal Convention for the Diocese of North Carolina meets in this city to-morrow.

WE return our thanks for a bowl of nice strawberries from Dr. Babcock, who resides near the city. He sold $8 worth yesterday.

ANDREWS our leading city clothier has a superb stock of clothing on hand. He has one of the most elegant stores of the kind in the entire South.

WE noticed on Saturday that several wagon loads of green peas were shipped from Henderson for New York. Truck farming will become general all along the line of our railways before many years. It can be made highly profitable.

GROUND PEA.—We are surprised that this article is not grown to a greater extent. We heard a large Warren farmer say yesterday that his crop this year was principally corn and ground peas. He is wide awake to his own interest and knows what he is about.

TO RAILROAD CONTRACTORS.—We are requested to announce that Proposals will be received at the office of the Western N. C. Railroad at Asheville, until the 10th of June, instead of the 1st. Papers publishing the advertisement are requested to make this correction.

FRANK THORNTON, Esq.—We are pleased to learn that the condition of this highly respected citizen of Warren is much better than was at first apprehended. He will certainly recover from the wound inflicted upon himself whilst in a state of insanity. His mental condition at present is very distressing to his friends.

THE CROPS.—In Granville, Warren, Wake and Franklin, the wheat crop was never more promising. The oat crop is rather poor. Cotton is sadly damaged in the two last mentioned counties. The prospect for a tobacco crop in Granville, (the largest tobacco growing county in the State,) is not at all flattering. There is an alarming scarcity of plants, the flies having destroyed two-thirds of them. There is also a great want of Cotton seed to replant the fields that have been injured.

THE WESTMINSTER REVIEW.—Any country or kingdom that possesses five such publications as Blackwood, and the four great Quarterlies, *Edinburgh*, *North British*, *British Quarterly*, and *Westminster* is rich indeed. There is a fulness of learning, an elegance of diction, a richness of illustration, a wealth of profound thought, that appears marvellous to the cultivated American who has to be content with the light and elegant articles of our best monthlies, the *Atlantic*, the *Galaxy*, and *Lippincott*.—We have only one American publication that in solidity of learning, logical power, and diversity of interest can be compared to any one of the British Quarterlies. We of course refer to the *Southern Review*, published in Baltimore, and edited by the acutest and most forcible reasoner we are acquainted with among living Americans—Professor Albert Taylor Bledsoe.

The April number of the *Westminster* has been just received and contains the following very inviting bill of fare. 1. South Africa. 2. The Gladstone Government. 3. Liberty and Light. 4. Domestic Fireplaces. 5. Alfred de Musset. 6. Mr. Mills' Speech on Capital Punishment. 7. The Philanthropy of the Age in relation to Social Evils. 8. Primary Education. 9. National Duty. Contemporary Literature. 1. Theology and Philosophy. 2. Politics, Sociology and Travels. 3. Science. 4. History and Biography. 5. Belles Lettres. 6 Art.

We reserve this number for reading hereafter when we will have more leisure than we have now. Such rich things must be enjoyed quietly and ruminated upon when the cricket on the hearth chirps away, and all else is quiet in the household. Price of each Review and *Blackwood* $4 each. The five for $15. Address Leonard Scott, Publishing Company, 140 Fulton St., New York.

We must add one remark, by way of warning. Whilst the *Westminster* is second to none in ability, it is more obnoxious to just criticism than its contemporaries because of its hostility to orthodox Christianity. Its religious speculations are loose and dangerous, and are calculated to do injury to any one not thoroughly grounded in the Scriptures, and somewhat familiar with dogmatic theology.

A SERIOUS CASE.—Information has come to us that there are about six hundred hands (men and boys) in Granville, who have been thrown out of employment by the shutting up of the Tobacco Factories. There are, we believe, some seven or eight, that have been closed by government officials, and the balance are afraid to work. In the county there is a large number of factories—more than thirty we suppose. These hands are all negroes, and many of them have families who are dependent upon them for support. They cannot get farm or other work, so what they are to do for bread, we cannot tell. Their case is indeed a hard one. Their Radical friends ought to lend a helping hand. Grant and Holden ought to see that their supporters do not suffer for the "staff of life."

THE leader of the Radical party, A. H Galloway, the colored Senator from New Hanover, had a scrimmage a day or two ago with a negro official in Wilmington. No damage done.

LATER FROM EUROPE—BY THE ATLANTIC CABLE.

AUSTRIA.

VIENNA, May 15.—The Emperor Francis Joseph, in closing the sessions of the Reichsrath yesterday, made a long and pleasant speech. He recalled the situation of Austria in 1866, which he compared with the present condition of affairs, and traced the course of legislation of the Reichsrath since that time. He was rejoiced at the friendly arrangements made with Hungary, and at the condition of the finances and of the army. He felt that peace was indispensable to the national prosperity, and the present relations of Austria with the other powers of the world assured him of its continuance.

ENGLAND.

LONDON, May 15.—Mr. Johnson, the American Minister, took formal leave of the Queen by letter and not in person, as was reported. He had an interview with Lord Clarendon on Thursday, when he officially announced his retirement, and presented Mr. Moran as charge d'affairs. Reports, believed to be based on good authority, are in circulation to the effect that the French government will soon publish a peaceful manifesto and simultaneously reduce the army.

SPAIN.

MADRID, May 15.—The Cortes has rejected a proposed amendment to the Constitution in favor of making Spain a Federal republic. The vote stood 162 to 64.

A proposition for the creation of a triennial directory, to be appointed by the Cortes, has been introduced and is now under discussion.

FRANCE.

PARIS, May 16.—Election meetings were held in all quarters of Paris yesterday to a late hour, but the excitement moderated as the day advanced. Late at night some crowds in the street were dispersed by the police. They made no resistance, and no serious disturbance occurred.

The Government has issued a warning, which is placarded throughout the City declaring that the renewal of the recent disorderly assemblages and demonstrations will not be tolerated.

LONDON, May 16 11 M. Telegraphic advices received to-night from Paris show that the political agitation there has been revived to day, and the excitement is very great, especially in those sections of the city where the liberal party is strongest. The authorities are taking extraordinary measures to prevent disorder, and at last accounts no serious trouble had occurred.—The Pays newspaper announces that a grand popular demonstration is to be made on Monday.

SPAIN.

MADRID, May 16.—The Cortes yesterday, after a long debate, rejected the proposition for the triennial directory. It is now confidently believed that a regency will be established, with Marshal Serano at its head.—Trouble has arisen with the volunteers for Cuba in consequence of the non-payment of their bounties.

DISAPPEARANCE OF A NEW YORK BROKER.—*New York May* 16.—Much consternation was caused yesterday in a prominent banking house in this city by the disappearance of the junior member of the firm, taking with him two certified checks—one for $95,475, and one for $23,650. He left the office at about two o'clock, carrying with him the certified checks and certificates of stock to the amount of $95,000, to make deliveries of the stock and a deposit of the proceeds. Not returning, at three o'clock, his partner made inquiries at the City National Bank, and ascertained that instead of making the deposits he had obtained the certified checks above mentioned, and cannot be found. His destination has not yet been discovered, or what disposition he has made of the checks.

The Mormon General Conference, which occurred at Salt Lake, on the 6th, 7th, and 8th of the present month, was one of the largest ever held in that city. The attendance increased from the beginning to the end, when there were probably eight thousand people present. The most material business that transpired during the conference was the appointment of forty-six missionaries, mostly to England, a few to Denmark, and other European countries, and one or more to South America, to preach the Mormon gospel to the benighted heathen of those distant lands; and the appointment of John W. Young, son of Brigham Young, as President of the Salt Lake City "Stake of Zion," in place of Daniel Spencer, deceased.

A point of some interest, in view of the opening of the Pacific railroad, arises as to the difference of time from London to China and Japan by the overland route through Egypt, and the westward route *via* the Pacific railway. The Peninsula and Oriental Company's time is—from London to Hong Kong, forty one days; Shanghai, forty-six days; and Yokahama, fifty-two days; including all stoppages and intervals for transhipments, which occupy seven days.—Westward the time would probably be: London to New York, ten days; New York to San Francisco, seven days; San Francisco to Hong Kong, eighteen days; total, thirty five days, not allowing any time for transhipments. This makes a very slight difference in favor of the Western route.—*The Round Table.*

UNITED STATES CONSULS DECLINING.—Secretary Fish is in receipt of letters from persons who are appointed consuls, and who have received their instructions, declining the places, because they ascertain that they cannot travel abroad from place to place. When they applied for consulships they misapprehended their duties.—It is the opinion of the Secretary that at least one half of the consulates lately filled will be vacated in six months.—*Washington Sunday Chronicle.*

ANOTHER STRIKE.—The coach drivers of New York have agreed to a general strike on Wednesday next, provided their demands for an increase of wages are refused. They are at present receiving from $1 50 to $1.75 per day. The wages to be demanded are $3 per day, which they consider reasonable enough, inasmuch as they are obliged to work 13 to 15 hours out of the 24.—There are about 1,000 coach drivers in New York.

SUMNER'S SPEECH.—If then, Mr. Sumner's speech represents fairly the general opinion and feeling in America on the Alabama question, we have no longer an advocate among English journals. It would be rash to say we have no longer one among individuals. I can only say I have not met one, nor have I yet found the Englishman who did not regard the speech as a thing to be resented pretty strongly.—*London Letter in N. Y. Tribune.*

IRON-CLADS TO BE SOLD.—The Navy Department has advertised for sale the following iron-clads, in pursuance of the reduction policy of the government: Philadelphia navy yard—Cahoes, Koka, Nauset, Suncook, Warsaw, Yazoo and Casco. Washington navy yard—Chimo. Portsmouth navy yard—Muscoota. Brooklyn navy yard—Huron and Pequot. Norfolk navy yard—Winnapec.

PERSONAL.

Mr. E. C. Steadman's poems have been on the whole very kindly treated by the English critics.

General George B. McClellan will have an article in the June *Galaxy* on Jomini.

George Ticknor Curtis has a life of Daniel Webster in press.

Commodore Vanderbuilt has just purchased a country seat at Carthage, on the Hudson, for $40,000.

Victor Hugo is really to be interested in a Paris paper. It is to be called *The Rappel*, will be conducted by M. Charles Hugo, and will number among its contributors M. Francis Victor Hugo, Rochefort, of the *Lanterne*, and other prominent anti Imperial writers.

APOTHEOSIS OF GEN. R E. LEE IN NEW YORK.—Yesterday afternoon as Judge Francis, the genial editor of the Troy *Times*, was sauntering down Broadway, he was suddenly accosted by a sharp featured, high cheek boned, black haired gentleman, in a spring suit of clothes, who grasped him warmly by the hand and said:

"General, I do assure you, sir, before God, that this is one of the happiest moments of my life. My heart is filled with gratitude to God that I am permitted to thus grasp you by the hand. God bless you, sir; God bless you a thousand times!"

Judge Francis was slightly staggered at this warm-hearted salutation; but before he could express his thanks the fiery eyed southerner continued:

"You cannot conceive, sir, the warmth of my feelings toward you. I do assure you that, were we not in the city of New York, and if I dared do it, I would tear the hat from my head and give three rousing cheers for old General Lee—the grand old 'Uncle Robert,' of the army of Virginia.—Yes, General; yes, sir, I would—before God, I would!"

So saying, the enthusiastic Confederate wound his arms about Judge Francis, and kissed him twice on the right cheek. He then warmly pressed the Judge's hand, and swept up Broadway with tears in his eyes.

The Judge stood like one bewildered for some moments; then, turning to a friend, he said: "Well, I declare, this beats all. I have frequently been mistaken for Edwin M. Stanton, but never before for General Robert E. Lee."—*N. Y. Sun.*

IRELAND.—*Dublin*, May 14.—The remains of Daniel O'Connell were to-day re interred in the cemetery at Glasnevin, near this city, where a splendid mausoleum had been prepared for their reception. The ceremonies were imposing, and were conducted by Archbishop Cullen.

Great crowds of people followed the remains to the tomb, and it is estimated that 8,000 were present on the ground.

A FATHER SUSPECTED OF BEATING HIS SON TO DEATH.—The little town of Harrison, on the east bank of the Passaic river, opposite Newark, N. J., has been thrown into an unusual state of excitement within the past two days through an occurrence of a most fatal character, whereby it is alleged a lad sixteen years of age has been hurried into an untimely grave through the brutal treatment of his father.

TELEGRAPHIC.

LAST NIGHT'S DISPATCHES.

FROM WASHINGTON.

WASHINGTON, May 17.—The President signed Gen. Sickles' commission as Minister to Spain to day.

Innocencio Casenova, who was recently released from a Cuban prison, is here

The total receipts of the government for the quarter ending March, were $139,000,000; expenditures for the same period, $159,000,000.

The President has appointed H. Ray Myers Postoffice Inspector for Alabama and Mississippi.

A delegation of Quakers from Baltimore visited the President in relation to the re-establishment of schools in the South, with special reference to North Carolina

The State Department has received no official or other report regarding Cuban affairs from the Consul at Havana.

FROM NEW ORLEANS.

NEW ORLEANS, May 17.—Gov. Warmouth has issued a proclamation instituting ten days' quarantine against Nicaragua and Central American ports and Vera Cruz.

The crevasse below the city is becoming worse. It is stated a channel is washed through the levee to the depth of fifteen feet and several hundred feet wide. New work is washed out as fast as made. The distance at this point from river to lake is but eight or ten miles, and it is supposed the large number of canals and bayous will carry off water enough to prevent spreading over a width of more than three or four miles.—Several of the first plantations of St. Bernard Parish are submerged. Reports are received of danger to the levees above the city. The river is only needed to be a couple inches from its highest point, and the levees in several points near the city are in a precarious condition.

FROM NEW YORK.

NEW YORK, May 17.—The *Tribune* Stockholders have abolished the office of Managing Editor, and given the executive control to Greeley.

There is much excitement in Wall Street in consequence of the failure of the German Banking firm of Schepeler & Co., largely short of gold. The general estimate of their short contracts on gold is eight millions of dollars. It is understood also that they were short of Government bonds, and had out a considerable amount of bills. On Exchange there was the greatest excitement and confusion, and the failure has caused an unsettled feeling in all departments.—The Gold market was the first to feel the effect of the failure. At opening there was a perfect rush to buy, which carried the premium up to 42½, but it soon after declined to 41¾.

It was rumored that the Bank of England Directors, at an extraordinary meeting, had advanced the rate of interest to 5 per cent.

Schepeler & Co. were large shippers of petroleum, produce and provisions, and heavy dealers in gold, stocks and bonds for Europe, and have extensive credits in London, Antwerp, Bremen and Frankfort, but their liabilities are extensively distributed on this side.

FOREIGN.

LONDON, May 17.—The critical state of affairs in Paris is variously commented on by the press here. It seems to be the general impression, however, that the French Government has fomented this discontent and adopted repressive measures to stay the disorders arising with a view to some ulterior design.

ÆTNA

LIFE INSURANCE COMPANY,

JANUARY 1ST., 1869.

Assets $10,462,531,75.

Amount of Income 6,227,071.

SURPLUS OVER LIABILITIES 2,675,999,48.

THE Ætna is the LEADING LIFE INSURANCE COMPANY in North Carolina.

Largest amount of Losses to Widows and Orphans!

The Largest Revenue to the States. And has by far the largest number when compared with 58 Companies reported officially by the Commissioners of New York and Massachusetts it will be seen that the Ætna ranks as one of the first Companies of the Continent. But two of the fifty-eight Companies permitted to do business in New York and Massachusetts had so large an income for the year 1868; but two had so large a number of Policies in force, but one among all those incorporated under the laws of the State of New York had so small a per centage of Expense to Income during the year 1868.

Its expenses are lower than most Companies', and consequently its ability to make and pay liberal dividends to the insured is greater than that of most other Companies. It is one of the great Companies of the land in Income, in Assets, in Number of Policies, in Amount Insured, in Solidity and Strength, in Soundness, Cheapness, Promptness, and Success. Persons contemplating this mode of investment in the future as in the past would do well to examine the claims of all and take a policy accordingly.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill*. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cures them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have, and can show, thousands upon thousands of certificates of remarkable cures of the following complaints, but such cases are known in every neighborhood, and are they should we publish them? Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion**, **Listlessness**, **Languor** and **Loss of Appetite**, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache**, **Sick Headache**, **Jaundice** or **Green Sickness**, **Bilious Colic** and **Bilious Fevers**, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa**, but one mild dose is generally required.

For **Rheumatism**, **Gout**, **Gravel**, **Palpitation of the Heart**, **Pain in the Side**, **Back** and **Loins**, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus. There are numerous cases where a purgative is required, which we cannot enumerate here, but recommend themselves to every one, and where the virtues of this *Pill* are known, the public no longer doubt what to employ.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that it is unnecessary to publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

OUT OF SERVICE.

"If as a flower doth spread and die,
Thou wouldst extend me to some good
Before I were by frost's extremity,
Nipt in the bud!"

Herbert.

A creature out of work in beggary,
To Thee I come,
O King of Kings, find room and use for me
In thy great home!

Scorn chilled to serve and please my fellow-men,
On Thee to wait
I offer me. In mercy let me in,
Ere 'tis too late

Though somewhat I be rusty, dull and frail,
Do not refuse me;
No weapon in Almighty hands can fail,
O Maker, use me.

Draw out the music from my heart-strings mute,
Notes high and glad
Of thanks and praise; or if it better suit,
Low, sweet, and sad.

My jangled cords a tuner's care and pain
Too much require;
But, good or bad, the player makes the strain
More than the lyre.

Speak unto me. The hardest rocks fall off
The best resound;
Thy voice may to some answering heart more soft
From mine rebound.

Or break with me thine awful rod apart,
If only so
Thy living waters through my stony heart
May weeping flow.

And forth anon the world's dry places through,
Untasted leap,
And give betimes to drink and live anew
Christ's fainting sheep.

I shiver through my show of leaves whene'er
The year comes round;
Why cumbereth it"—I ever fear to hear—
"The groaning ground!"

The hungering husbandman too oft hath passed
He seeks my fruit
And tills my clod in vain. The axe at last
Lies at my root.

WASHING COMPOUND.

Patented Sept. 22, 1868.

REASONS FOR PREFERRING THIS SOAP.

The Patentee claims for this Soap the following advantages which are clearly set forth in the Letters Patent, to-wit:

First, it can be manufactured at less than half the cost of any soap ever produced.

Secondly, it may be used successfully in any kind of water—cold or hot, hard or soft

Thirdly, it so modifies the action of boiling water on woollen goods that their fibres do not contract under its influence, and your woollen garment is as large after boiling as before.

Fourth, it does not decompose the colors of goods, and your prints and articles are as brilliant after washing as before.

Fifth the goods do not require any rubbing or patent washing machine—all that is necessary is a few minutes boiling and a good rinsing.

LIFE INSURANCE.

NATIONAL

LIFE INSURANCE COMPANY,

OF THE

UNITED STATES OF AMERICA,

WASHINGTON, D. C.

Chartered by Special Act of Congress, Approved July 25th, 1868.

CASH CAPITAL,

$1,000,000,

PAID IN FULL.

It is no longer a question with any man, who tenderly loves his wife and children, who considers how helpless would be their condition in case of his *death*, as to the duty of taking out a LIFE POLICY, but as to which Company he shall pay his money.

If he reflects a moment he will conclude to patronize the Company which shows the greatest degree of vitality, which extends its business over the largest area, which is a Home Company in every locality; which furnishes insurance at the least cost; which issues no policies that are forfeitable should he be unable next year, or any subsequent year to pay his renewal; and which is undoubtedly able to meet ALL ITS PROMISES.

With these feelings and views, he looks over the newspapers and, by the time he gets through reading the advertisements of Mutual or Mixed Companies, he finds his mind so muddled that he is at a loss where to go or what to do. He can not comprehend one-half that is written, and concludes that none but ACTUARIES, who are familiar with the principles upon which Life Insurance is based can comprehend or explain anything about dividends and his liability for notes given in part payment of premiums. In his dilemma, he looks into the plan adopted by the

NATIONAL

LIFE INSURANCE COMPANY,

U. S. A.,

and finds just what he wants!

An ALL CASH PLAN, reduced to the LOWEST MINIMUM Rate, like any commodity in Market, so much Insurance for so much Money. No notes to give; no interest to pay; no anxiety about Assessments; no apprehension of his Policy being forfeited next year if he does not pay his annual Renewal; and the RATES so much LOWER than other Companies, that he realizes a larger Dividend, IN ADVANCE, than other Companies can pay him in the future.

He finds that, instead of this UNCERTAIN PROMISE, and present high rate, that the

NATIONAL

presents a certain and definite sum for a much lower rate, and puts up its paid up Capital of

$1,000,000

as a guarantee fund, that its contracts will be fulfilled, and, like thousands of others, cheerfully calls on their Agent to make his application for a Policy. Hence the unprecedented and most wonderful success of the NATIONAL as contrasted with the older and Mutual Companies.

The Company issued its first policy on the 1st of August, 1868, and up to March 1st, 1869, it had issued 3,582 policies.

Amount insured,	$16,035,550.00
Total Premiums,	330,117.03

The whole number issued by the Connecticut Mutual in the first year of its existence was 892

By the Mutual Benefit of New Jersey,	693
" New England Mutual,	343
" Phœnix Mutual,	235
" Massachusetts Mutual,	312
" Equitable of New York,	977

The Mutual Life, of New York, in the first year of its existence, only issued 470 policies.

In its 10th year,	1,260 "
And in its 20th year,	2,812 "

this latter being 690 less than was issued by the NATIONAL in its first seven months.

NEW ARRANGEMENT.

The RALEIGH SENTINEL having passed under the Editorial management of the undersigned, it will, from the present date, be conducted by him.

It will be the zealous and fearless advocate of the CONSTITUTION of the United States, seeking to bring the people back to their ancient reverence for that immortal instrument, and to restore the policy of the country to that honored standard, as the only guarantee of National prosperity.

It will do justice to the men and measures of the present day, whenever they may merit it, but it will unsparingly lash and denounce all who set themselves up in opposition to the Federal Constitution, and hold up to the public indignation corruption and imbecility in high places.

It will ardently seek the promotion of the best interests of North Carolina,—moral, educational, material and political.

THE LATEST NEWS

From every quarter, both by mail and telegraph will be carefully collated and presented.

Full and correct market and financial reports will be given.

Feb 11-tf J. A. JONES, Raleigh, N. C.

CAUTION! WE desire to warn the dealers in, and consumers of Snuff generally, that since the war, certain Tobacco Manufacturers, being unable to find a market for their snuffs, felt themselves obliged to counterfeit the general appearance of our packages, and imitate our Trade Marks so that a close inspection is necessary to detect the spurious article from the genuine, and others going so far as to assert that "Lorillard's Snuff is no longer made."

In making this publication we desire to warn the public against the impositions practiced upon them, as they are the losers thereby. It will be found, upon comparison, that Lorillard's Snuff is "far ahead" of all others, being made of the best stock, after an original and secret process known only to ourselves, besides possessing great age, strength and pungency, and is warranted not to contain any dangerous or deleterious substances, which cannot be said of many worthless articles put on sale by others. The best is the cheapest in the end. A circular will always be mailed on application. In ordering please specify if Salt Snuff (High Toast,) or Fresh Snuff (Extra Scotch) is desired.

NEW METHOD OF WASHING CLOTHES WITHOUT LABOR.

THE AUTOMATIC

CLOTHES WASHER AND BOILER.

THIS BOILER IS MOST EFFECTUAL, reliable and universally recommended. It can be used on any Stove or Range, in any boiler, and the low price of the article places it within the reach of every family.

The Boiler operates upon purely philosophical principles, is self-acting, and dispenses with almost the wear of the clothes.

The bubbles and steam, by the action of heat, are driven up through tubes poured upon the clothes, and forced through the fabric with astonishing rapidity, cleansing all articles, from the finest linen to the coarsest. For Flannels it is invaluable, as it does not fall them as in the old process of rubbing and pressing.

The time required for cleansing a boiler full of clothes is twenty to forty minutes, and nearly three hundred gallons of boiling suds are forced through the fabric thoroughly cleansing and restoring the dirt WITH OUT LABOR or friction.—A thorough rinsing finishes the process.

Washing day will not be a terror and dread to housekeepers. The cost of the Boiler will soon be returned in the SAVING OF TIME AND LABOR, and the great saving in the wear of clothes.

The great value of this invention appears so clear, and appeals so strongly to common sense, that we have deemed it unnecessary to accompany its introduction with numerous letters or approvals, &c.

No invention has met with such ready sale and given such satisfaction. Call at LOUGHLIN & BROTHER'S, and see its wonderful operations.—We have the exclusive right to sell and manufacture in the State
